

Neutralizing product for acid cleaning materials**Application**

- To neutralize the rinse water of facades which have been treated with Redinet

Properties

- Biologic degradable.
- Light alkaline liquid.
- When applied on a facade which has been treated with Redinet, neutralizes the rinse water and minimizes the chances to efflorescences on the treated surfaces.

Directions**Work method**

- As the acid facade cleaning material is well penetrated, **Acid Neutraliser** will be sprayed on the treated surfaces.
- After this treatment, the facade will be rinsed off under low pressure which starts at the bottom going upwards in horizontal movements.
- Afterwards the final cleaning is done with water under high pressure (minimum 100 BAR) which starts at the bottom going upwards in horizontal movements until no foam is detected on the cleaned surface.

Important remarks

- Local discharge regulations need to be followed when discharging into sewers.
- The discharged wastewater must not exceed a pH of 10. To reach this pH, use at least 10 times more rinse water than the amount of pure product used.

Technical characteristics

Aspect	liquid
Density	+/- 1,1
pH	+/- 11,2

Quantity to use

0,1 – 0,2 ltr/m²

Packaging

20 ltr

Safety information – Transport – Handling and storage - Waste

Consult the most recent and product-related safety information sheet from Rewah in compliance with the (EU) 453/2010 annex II/A guidelines. The information on the abovementioned safety information sheet has been drawn up with the greatest care and is based on the knowledge available at the date of issue. We accept no liability for damage or hindrance of any kind which could be caused by the use of the product concerned.

Transport and storage

Transport and store away from frost. Protect the product and its packaging against direct sunlight. Avoid storage at temperatures >30°C.

Storage life

1 year after manufacturing in the original closed packaging.

Considerations

The data included in this sheet, the application advices and other recommendations are based on extensive research and experience. They are however not binding also in relation to third party liability. They do not protect the customer against checking the products and directions for their suitability for the purpose. The characteristics and properties described are average values and analyses registered at 20°C, variances are tolerated. Our customer service will gladly answer your questions. The rewrite of this sheet replaces all previous sheets.
