

Powerful and ready to use biocide/bactericide for outside**Application**

- To fight and remove all kind of greenness attack on bases like: synthetic material, wood, (ceramic) floors, roof tiles, slate, facades, ...
- To destroy moss, alga, fungus, ... on all outside surfaces

Properties

- Powerful.
- Ready-to use biocide.
- Self- cleaning and durable effect until deep into the pores of the base in which the moss infestation can be fought longer.

Directions**Preparation**

- Apply on a dry or lightly moisture base.

Work method

- Apply the liquid undiluted equally with a soft brush or rough spraying under low pressure.
- Will become effective after 24 hours.
- Clean afterwards the treated surfaces with water under high pressure.
- There can also be chosen to not to clean the treated surfaces with water under high pressure in which the biological contamination after dying will gradually be washed away by the rain.

Important remarks

- Do not apply in case of rain, expecting rain, freezing or expecting freezing.
- To have an optimal effect of the product, do no use in full sun.
- Avoid prolonged contact with metal surfaces as color changes may appear.
- Clean the material after use immediately with water or soap water.
- The use of this product can lead to local pollution of the water and bottom. Take the necessary measures into account to prevent the diffusion of the product into the environment.

Technical characteristics

Aspect	thin liquid
Density	+/- 1,0
Type of raw material	dimethylalkylbenzylammoniumchloride
Solvent	water

Reports

- Permission number Departement of Public Health 11606 B

Quantity to use

0,1 – 0,2 ltr/m² depending of the roughness and the porosity of the base

Packaging

5 ltr and 20 ltr

Safety information – Transport – Handling and storage - Waste

Consult the most recent and product-related safety information sheet from Rewah in compliance with the (EU) 453/2010 annex II/A guidelines. The information on the abovementioned safety information sheet has been drawn up with the greatest care and is based on the knowledge available at the date of issue. We accept no liability for damage or hindrance of any kind which could be caused by the use of the product concerned.

Transport and storage

Transport and store away from frost. Protect the product and its packaging against direct sunlight. Avoid storage at temperatures >30°C.

Storage life

1 year after manufacturing in the original closed packaging.

Considerations

The data included in this sheet, the application advices and other recommendations are based on extensive research and experience. They are however not binding also in relation to third party liability. They do not protect the customer against checking the products and directions for their suitability for the purpose. The characteristics and properties described are average values and analyses registered at 20°C, variances are tolerated. Our customer service will gladly answer your questions. The rewrite of this sheet replaces all previous sheets.
